

November 29th, 2018

We hope you had a wonderful Thanksgiving! The approaching New Year is a reminder that it's time for year-end planning for your business. Please take this opportunity to review the attached **Small Business Year-End References** and let us know if you have any questions.

We have been posting updated information for you to review on our website. Visit www.hettickaccounting.com and click the Resources Tab – follow the links for Small Business and Tax Resources.

It is very important to think about year-end strategies **before December 31st**. We encourage you to schedule a **Year End Consultation**, not only to review projections of your business's net income and ensure that estimated tax payments are in line with those projections, but also to nail down any end-of-the-year actions. At the same time, we can discuss the new tax laws, retirement planning, payroll, health insurance, etc.

We have truly enjoyed serving you and the community over the years and look forward to welcoming the New Year with you. We hope you have a wonderful holiday season filled with peace, joy, and many blessings.

Sincerely,

Kathy Hettick, Principal, EA, ABA, ATP

Kelly O'Kelly, Business Manager
